

Life Changing Results:

“Stimpod is my go-to solution for even my toughest cases”

“After three treatments, most patients have complete pain relief.”

*“recently developed **electromagnetic therapies** can profoundly change nerve conduction in the central and peripheral nervous system... that may completely ameliorate the pain, even in severely painful conditions...”*

Professor Phyllis Berger
World Renowned Pain Treatment Specialist

ALGIAMED
TECHNOLOGIES

Algiamed Technologies:

Electromagnetic therapies that target the root cause of chronic pain and nerve pathologies. Non-Invasive treatments with clinically proven results and no side effects.

STIMPOD
LPRF THERAPY
RESTORE HEALTHY NERVE FUNCTION

Target Chronic Pain

Clinically Proven Results:

- Lasting Relief
- Fast-Acting
- Non-Invasive
- No Side Effects

This powerful new technology is helping thousands worldwide. **It can help you too.**

+ STIMPOD tPRF THERAPY

Restore Healthy Nerve Function. Renew Everyday Quality of life.

tPRF Therapy (transcutaneous Pulsed Radio Frequency) targets the root cause of chronic pain & nerve pathologies with clinically proven results and no side effects.

Non-Invasive:

The Stimpod tPRF Therapy waveform is non-invasively transmitted via the Stimpod Treatment Probe directly to the nervous system.

Fast Acting:

Stimpod tPRF Therapy is fast acting with patients reporting near instant results after a single treatment session which usually lasts less than 10 minutes per treatment site.

Lasting Relief:

With Stimpod tPRF therapy treatments, many patients enjoy lasting results that can keep them feeling great for a year or more, and some even find they need no further treatments at all.

No Side Effects:

Unlike other pharmacological or surgical chronic pain treatment alternatives, Stimpod tPRF therapy has no side effects.

Remarkable Recoveries:

“After only three sessions of Stimpod tPRF therapy, the terrible burning pain in my leg has nearly completely dissapeared... I can now comfortably walk up and down the steps again!”

Gail Kennedy, *Peripheral Neuropathy*

“I had a very bad golfer’s elbow and could hardly even operate the remote control for the tv. I went for surgery but still had very bad pain... I was finally referred and received the Stimpod tPRF therapy treatment. I’m now back to full activity, playing more golf than ever and cycling alot!”

Richard Pike, *Chronic Elbow Pain*

“The pain I had at night was so extreme... anything that touched my feet caused a very severe burning pain... I couldn’t sleep... after receiving the Stimpod treatments there was a radical change. For my last treatment sessions I came in high heels!”

Cecilia Fremy, *CRPS*

“I was diagnosed with Bell’s Palsy with the complete inability to move my right sided facial muscles. I was recommended to receive Stimpod tPRF therapy and after the third session, my signs and symptoms had completely resolved.

Dr. Vito Modugno, *Bell’s Palsy*
